EDUCATION

Sanskar Institute of Management & Information Technology, Bhuj   **Jul 2008 - Mar 2011**
B.C.A - Computer Science

I.T.Vedant, Navi Mumbai   **Aug 2022 - Nov 2023**
Master Certification in Full-Stack Development- Computer Science

WORK EXPERIENCE

Front-End Web Developer Intern at kookies.io   **Sept 2023 - Nov 2023**

- Spearheaded the development of **responsive web designs** using **React.js**, ensuring optimal user experiences across various devices.
- Implemented **SCSS** to streamline the styling process, enhancing code maintainability and facilitating **modular design components**.
- Applied **JavaScript** to create interactive elements and dynamic features, contributing to a more engaging user interface.
- Ensured all web applications were **fully responsive**, providing an optimal viewing and interaction experience across a wide range of devices.
- Ensured adherence to **clean coding principles**, contributing to a codebase that is not only functional but also easily understandable and maintainable for future development.
- Utilized various libraries, such as **Material-UI** and **Core UI**, to enhance the visual appeal and functionality of web applications by implementing **pre-designed React components**, thereby accelerating development.
- Collaborated closely with designers, using **Figma** to convert design mockups into **pixel-perfect web code**. This process facilitated a smooth transition from design to implementation

Export Documentation Executive at Aarti Trading   **Sept 2011 - July 2022**

- Responsible to **recheck the documentation** of each and every activities relating to import and export.
- To understand and follow **import-export policies.**
- **Letter of Credit** processing and negotiation.
- To prepare **pre and post shipment document** relating to import and exports.
- Keep track of **invoices** and prepare necessary **reports**.
- **Banking Procedures** related to import and exports.
- Manage the **transportation** of goods as per procedure.
- Co-ordinating with CHA and Freight Forwarder for **status of shipment**.
- **Bill of lading audits** per vessel/voyage with a high focus on quality and accuracy of documents issued.

PROJECTS

Instagram Web Clone (view/git_repo)   **Sept 2023 - Present**

- Developed a comprehensive Instagram clone, including **user profiles**, **modals, sliders, navigation bars, galleries**, and **navigation links**.
- Successfully integrated **React Router** to enable smooth navigation and page routing within the application.
- Designed a modular and maintainable codebase using **React components**, promoting code reusability and scalability.
- **Tech Used**: ReactJs | HTML/SCSS | Javascript |Figma| BootStrap

Software Inventory Management(view/git_repo)   **May 2023 - Present**

- Implemented a comprehensive Software Inventory Management System using **Spring Boot**. This System Utilizes a **RESTful mapping** for seamless **API integration** And leverages **Postman** for efficient API testing
- With **JSON data exchange** and a **MySQL** database, it provides A reliable and scalable solution for tracking software inventory..
- **Tech Used**: Java | Spring Boot | MySQL | Postman

CERTIFICATIONS

Fundamentals with SQL | Basic of Web Design | Web Design Professional | Java Essentials | Java Professional | Angular 14 | Python Programming | MERN Essential

SKILLS

Languages and Tools: CSS | HTML5 | JavaScript | Java | Python | Node.js | MySQL | MongoDb | Angular | ReactJs | Spring Boot | SCSS
